

DOC'S PRODUCTS

ACCORDING TO THE AAEP, lameness is a term used to describe an abnormal gait, typically in response to pain somewhere in a limb, but also because of a mechanical restriction of limb movement. OCD™ Pellets (Optimal Cartilage Development) are proven to increase comfort associated with daily activities to help maintain a mobile, sound, pain-free horse.

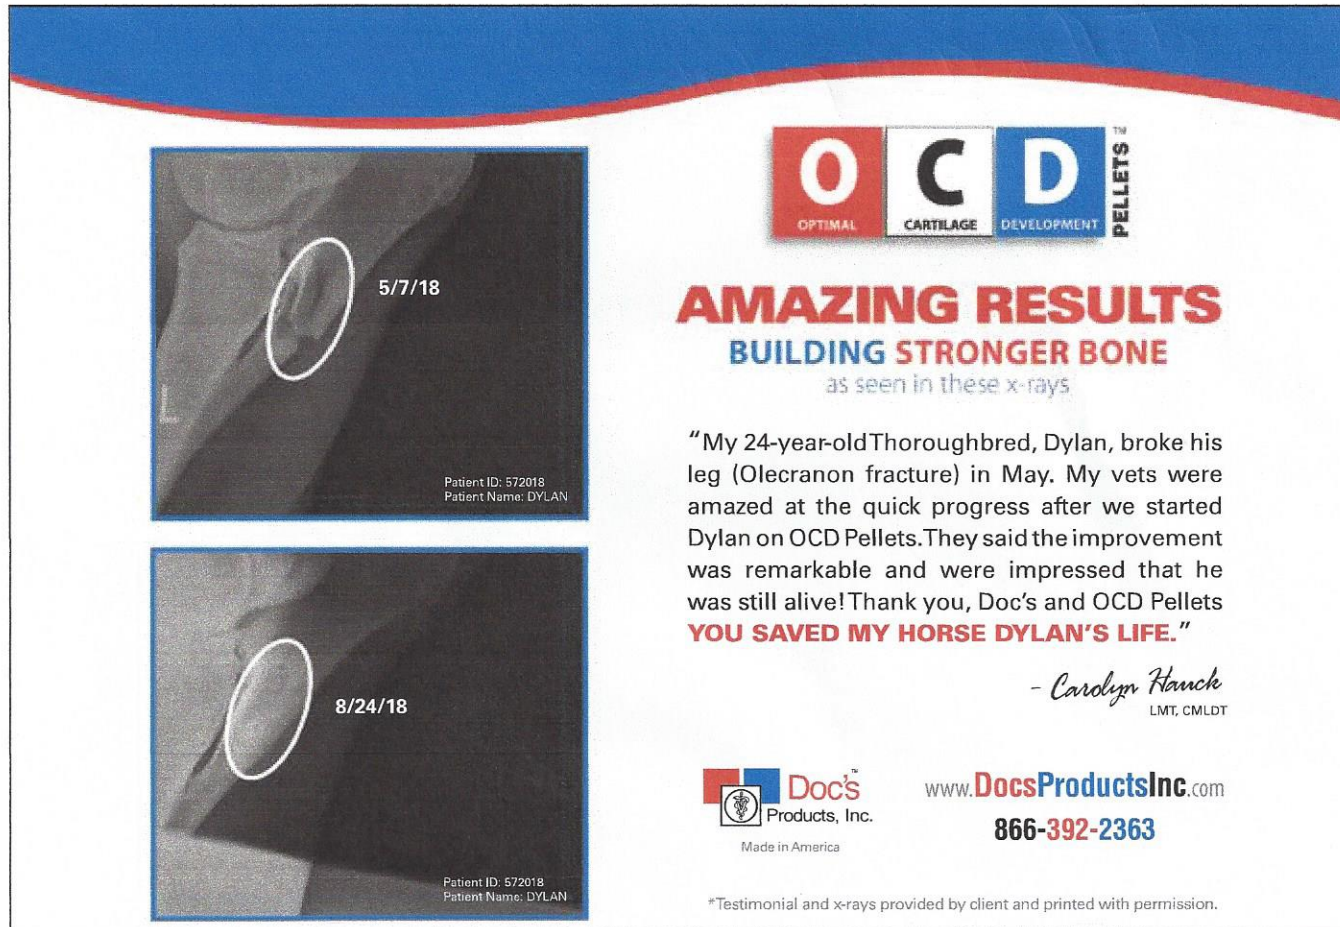

Building healthy bone requires the proper activity of bone-building nutrients, hormones and cells. OCD™ Pellets, a 2-in-1 supplement, supports the bone and joint health of horses in all stages of life. The dual-action

of OCD™ Pellets supplies the building blocks necessary for the formation and maintenance of healthy cartilage and bone. Since inflammation interferes with bone remodeling and accelerates bone loss, OCD™ Pellets rely on Corta-Flex®, a clinically proven formula and key component found in OCD™ Pellets, as a source of nutrients that addresses inflammation of the joint.

Studies demonstrate Chondroitin, Glucosamine, and Hyaluronic Acid are large molecules that are difficult to absorb. OCD™ Pellets does not rely on these large molecules for absorp-

tion. Our formula is micro-sized isolates of the active ingredients of Chondroitin and Glucosamine, resulting in higher level of assimilation and absorption. No other products with Glucosamine and Chondroitin—regardless of milligram strength—can match the effectiveness of the OCD™ Pellets.

Effective in the treatment of OCDs, Epiphysitis, DJD, Bucked Shins, Sesamoiditis, Bone Cysts, Bone Bruising, Navicular Syndrome, etc., OCD™ Pellets provides the nutritional requirements for the development, maintenance and repair of bones and joints, keeping your horse sound and pain free.

OPTIMAL CARTILAGE DEVELOPMENT PELLETS™

AMAZING RESULTS
BUILDING STRONGER BONE
as seen in these x-rays

"My 24-year-old Thoroughbred, Dylan, broke his leg (Olecranon fracture) in May. My vets were amazed at the quick progress after we started Dylan on OCD Pellets. They said the improvement was remarkable and were impressed that he was still alive! Thank you, Doc's and OCD Pellets **YOU SAVED MY HORSE DYLAN'S LIFE.**"
